

EDITOR AUTO SAVE

About

OVERVIEW

This asset solves a design flaw in the engine where it adds support for the missing auto save feature as well as simple version control for scenes

FEATURES

- Adjustable save time
- Enable/disable the save prompt
- Simple Backup
- Version Control
- Auto Save Notification and countdown timer

EASY TO USE

Enable/disable auto save feature with a simple checkbox

VERSION CONTROL

- Scene Backup
- Backup each time before saving
- Limit how many scenes are backed up

CONTROL EVERYTHING

Whatever you need to adjust is there, from save time to debug messages
Enable/disable any feature as you like

Setup Guide

1- Installing Dependencies

- Import the Editor Auto Save package
- Install Editor Coroutines (if not installed)

2- Enable the Auto Save

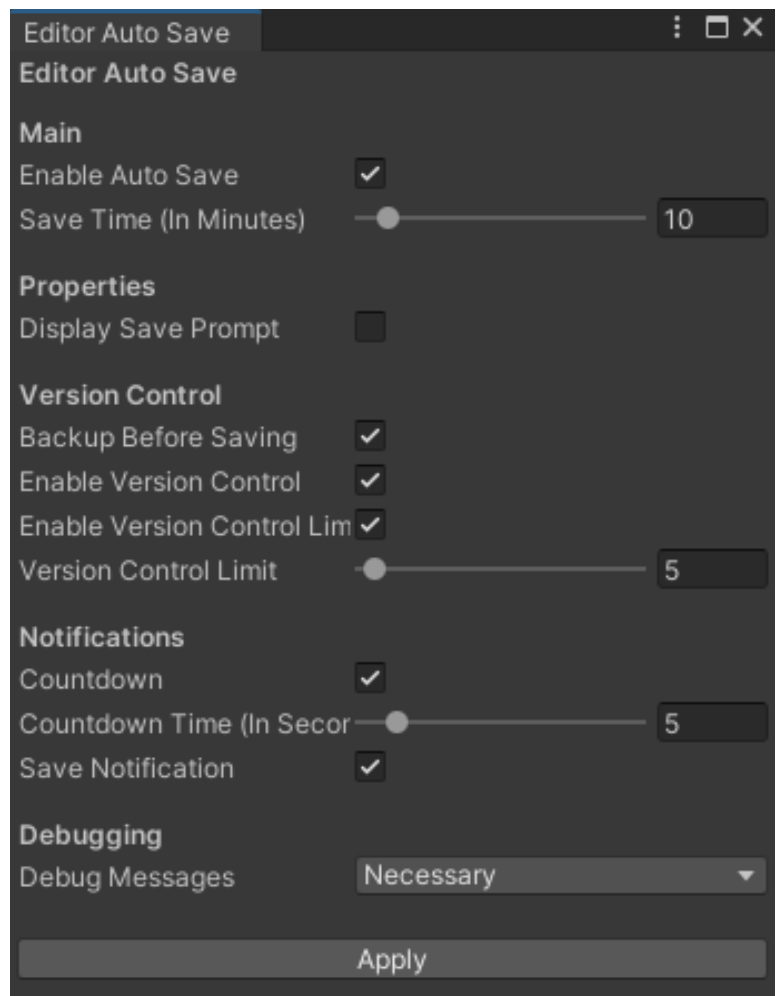

- Open the Editor Auto Save window, then check “Enable Auto Save”
Tools → Editor Auto Save

2.1- Adjust the Save Time

- Move the Save Time slider to adjust the time between each auto save, this is measured in minutes
(Default is 5 minutes)

2.2- Disable/Enable Save Prompt

- You can enable the save prompt window to popup when autosaving, this could be helpful when you are experimenting and don’t want to save
(Default is disabled)

Values

Main

- Enable Auto Save (Enables/disables the autosave feature)
- Save Time (Adjusts the time between each auto save, this is measured in minutes)

Properties

- Display Save Prompt (enables the save prompt window to popup when autosaving)

Version Control

- Backup Before Saving (Create a copy of the open scene before saving)
- Enable Version Control (Creates more than one backup scene so you can rollback easily)
- Enable Version Control Limit (Limits how many backups are made)
- Version Control Limit (Controls the limit of how many backups are made)

Notifications

- Countdown (Display a countdown notification in the Game Window before saving)
- Countdown Time (Controls the countdown value)
- Save Notification (Display a notification in the Game Window when it has finished saving)

Debugging

- Debug Messages (Sends debug messages to the Console Window)

Debug Messages	Full	Necessary	None
Apply Changes	●	●	
Backup Folder Path	●	●	
Backup Folder Creation	●		
Saving	●
